

Project Description

The cornerstone of this project is to produce an application with high quality based on the details that you have been taught in class.

In general, the project is distributed on 4 separate phases where each phase will be released on a specific time according to what you have covered in the lectures and with a specified deadline.

Phase	Content	Due Date	Grade
Phase 1	project idea	Week 8: Thursday, 12 Oct	2 Points
Phase 2	Requirements	Week 11	4 Points
Phase 3	Quality Plan	Week 13	5 Points
Phase 4	Quality Metrics	Week 15	4 Points
Total			15

Phase 1:

As a first step, each group should choose a unique project idea by **Thursday, 12 Oct at 8 am pm**.

Example of ideas: online Gift-wrapping service application, Coffee shop application, Learning Management System (LMS), Delivery service application (e.g: Uber, Careem), Booking Service application ... There are plenty of ideas ... **Be Creative!**

Please note that there is no implementation required in this project.

Deliverables:

You should submit a **proposal** -available in LMS- that contains 2 pages describing your project idea, goal, objectives, target users, and project plan.

Project Policies:

- Each member of a group should make sure she is participating in the project. The instructor will verify on a regular basis if each student is being involved in the project or not. The instructor can decide to penalize students who are not working seriously on the project.

- If there is a conflict in a group, either professional or interpersonal, the group members are responsible to resolve it internally. If they cannot resolve the problem and the conflict is stopping them from advancing in the project, they should talk to the instructor.
- Team work is graded. i.e. if members in the same group didn't cooperate with each other they lose that grade.
- Each project phase report will be submitted through each group page in LMS.
- Taking credit for work that is not yours will result in ZERO in project mark.
- Delayed submissions will be penalized by lowering your grade by 25% of the total phase grade. Any submission after 24 hours of the specified deadline will NOT be accepted.
