

Phase 2 Description

Each group is required to collect a set of requirements (functional and non-functional) for their project. **Each member in a group** should gather 6 requirements. So, if a group contains 3-4 students, the total number of requirements should be 18-24 (at least). Requirements should be written correctly.

Please note that you should use **Software quality factors** to ensure the quality of the requirements document. Use at least 8 quality factors.

Deliverables:

All deliverables will be through LMS.

Phase	Content	Due Date	Grade
Phase 2	<p>A document that contains the following:</p> <ol style="list-style-type: none"> 1. A cover page. 2. A section for the functional requirements. 3.
